You can message non-urgent requests via the website homepage

In March 2019 the practice relocated to a site that will enable it to develop and improve its services to patients over the coming years. The practice in the new site provides:

- Ample off-street **car parking**
- A beautiful, peaceful **garden historic setting**
- A spacious bright **waiting room** easy to clean and maintain infection control
- Large well-equipped **consulting rooms** hosting a growing range of services on the one site
- A **friendly professional staff team** committed to community and family health and with a breadth of skills
- An emphasis on **wellbeing, life-style development and holistic care** – including health education, mindfulness, yoga, etc
- A GP specialising in contraception services, menopause advice and all aspects of **women's health**
- A **minor surgery** service
- A growing range of **specialist services** – e.g. Physio, ENT, Diabetic Eye Screening

The Dardsley site began as a doctor's house in 1886
